

K-Love is my morning music to get me going and remember how much I need the Lord each day. Why should Christian stations be always the first to be affect when you want to change something, why don't we target some of the offensive stations first. Christian stations have to raise their own funds I think that says something about what the communities really want to hear. With all that is going on in the world these days we all need to be uplift at sometime or another in lives.
